Trained and active plan

December 2018

Trained and Active UNISON contact

Introduction

As a new workplace rep UNISON is committed to supporting your training and development. Your branch can help you attend relevant training courses and will allocate you a mentor who will be available for regular catch ups to support your development, answer your questions, and put you in touch with the information and people who can help you along the way.

To help you proactively seek opportunities to develop in your role, this plan has been written with lots of suggested activities to get you started. You should arrange to sit down with your mentor and work through the following forms so that you are clear on your next steps.

How to use your trained and active plan:

The abilities you will develop for your role have been grouped into:

- ways of thinking
- understanding
- skills.

Each section of your trained and active plan has suggested tasks to help you on your journey from beginner to becoming experienced – gaining loads of experience along the way. It also has space for you to write down where you feel you are currently, so you can discuss with your mentor and look at what support you need to develop more confidence and carry out activities.

Your trained and active plan will work as a live portfolio of your progress and training and we encourage you to keep it to build on as your experience in the union progresses. You may also find some of the suggested activities listed in the sections of the trained and active plans for UNISON contacts and activists (separate documents) useful if you haven't already completed them.

Good luck!
